

Sequence logo for the GAGGAGGAGG motif. The logo displays the probability of each nucleotide (A, C, G, U) at each position. The top row shows the most likely nucleotide for each position: G, G, G, C, G, C, G, A, A, A, C. The bottom row shows the other nucleotides: U, G, U, C, C, C, G, G, G, G, C. The colors are: G (yellow), C (blue), A (green), U (red).
